

DATA SHEET

TECHNOWRAP™ GLYCOL

Technowrap™ Glycol is an original product from the innovative Technowrap™ composite repair product line. The multi-directional glass cloth used in conjunction with our specialised formulated epoxy resin system is developed for use for the repair of piping and vessels containing up to 100% glycol. Once applied Technowrap Glycol™ can seal through wall defects and re-instate the structural integrity of the defective pipe section.

Fibre	E-glass tri-axial stitched cloth 0° ± 45°
Application	Complex geometries Piping systems Pressure retention Leak sealing
Defect types	Internal External Through-wall
Max design temp	Up to 90°C with 100% glycol
Approx cure time	24 hours
